

C. E. JENNINGS & CO'S

EXTRA QUALITY AUGER BITS.

ALL OUR AUGER BITS ARE MADE OF SOLID CAST STEEL AND WARRANTED.

THIS Illustration represents our Auger Bits put up in Wood Boxes with a rack to hold one Auger Bit of each size. This is a great convenience to Mechanics, as the Bits can be put away immediately after use, each Bit fitting into its own place. These Boxes would cost the Mechanic at least 50 cents without the Bits.

No. 10 set Extension-Lip Pattern, 32½ Quarters, \$5.00 per set.
